### Mike Green

Logica Funds' Mike Green explains why he and most of the smartest people in finance are in the business of exploiting and profiting from deficiencies of current markets, rather than fixing them. ## Beyond Blockchain

### The Death of the Dollar and the Rise of Digital Currency

#### [Check out Erik Townsend's new book!](#)

The cryptocurrency trend of the past few years has continued to grow despite widespread predictions that it would just be a flash in the pan. Blockchain is suddenly everyone's favorite buzzword. But what if there's more to this story than meets the eye? What if Digital Currency is about to change the world in ways beyond our imagination? And what if geopolitical forces our politicians don't even understand have already inspired China and Russia to use Digital Currency to attack the U.S. Dollar's dominance over the global financial system?

Erik covers these subjects and more in his recently published book. Please visit [www.macrovoices.com/bb](http://www.macrovoices.com/bb) for more information and to order the paperback, Kindle, or audiobook.
